Basis of the qualification

Structured basic training with formal theory and practical assessment, delivered and assessed by a qualified instructor/assessor. Built to satisfy the Health and Safety at Work etc. Act 1974 and PUWER 1998 regulation 9 (adequate training), and where applicable the HSE Approved Code of Practice L117 and LOLER 1998. Units are worked to the outcomes of the National Occupational Standards.

Theoretical assessment completed

- Unit-by-unit knowledge and understanding questioning, recorded and signed for each of the 7 units listed overleaf.
- A 45-question technical theory test answered in the candidate's own handwriting.
- Pass standard 36 of 45 (80%), with all designated safety-critical questions required to be correct irrespective of the overall score.

Practical assessment completed

5 structured exercises, each marked against observed performance criteria (competent / not yet competent — every criterion must reach competent; any dangerous act terminates the assessment):

- Accessory selection and pre-use inspection
- Attaching the load
- Signalling and moving the load
- Landing and releasing the load
- Accessory care and housekeeping

Units achieved (Certificate of Unit Credit)

Ref	Unit title	Credits
641	Conforming to General Health, Safety and Welfare in the Workplace	2

642	Conforming to Productive Working Practices in the Workplace	3
643	Moving, Handling and Storing Resources in the Workplace	5
402	Attaching, Lifting and Moving Suspended Loads in the Workplace (Slinger/Signaller)	12
404	Preparing and Securing Loads for Movement Using Lifting Accessories in the Workplace	9
405	Maintaining Work Equipment and Accessories in the Workplace	7
406	Signalling for the Movement of Loads in the Workplace	5

Assessment decision

Having examined the candidate's theoretical knowledge and observed their skills against the criteria above, the assessor deemed the candidate COMPETENT within the stated scope, and the VQ was awarded. The decision trail — questioning records, the marked handwritten test paper and the signed practical checklists — is held in the evidence file (retained for the life of the certificate plus 3 years) and is available to site management for verification on request.

For site management

- This VQ evidences the BASIC TRAINING stage. Site and employer-specific familiarisation and the employer's written authorisation complete the competence picture.
- This is independent in-house certification, not a CPCS/NPORS card. Where your site contractually requires a scheme card, that rule stands.
- Refresher or reassessment is recommended at 3–5 years, or sooner on incident, change of equipment or task, or a long break.
